

# The RESISTER

PO Box 35046, Fayetteville, North Carolina 28303

---

Thursday, May 31, 2001

Dear subscriber:

There have been any number of rumors circulating about The Resister's fate. This letter, and the enclosed memorandum under the letterhead of the Major General Edwin A. Walker Society explains what is happening regarding The Resister.

The short of it is that new subscriptions have, for practical purposes, ceased, and renewal rates have fallen to levels that make it impossible to sustain The Resister's continued publication. Rather than simply shutting down The Resister the decision was made to fold all operations into the Major General Edwin A. Walker Society and make this a membership organization instead of a subscription based publication.

Therefore whether The Resister continues to publish or not is entirely up to you, our current subscribers, and those of you who are due for renewal. Simply put, without your monthly support through membership in the MG Walker Society we cannot publish The Resister or continue our anti-Communist activism within the military.

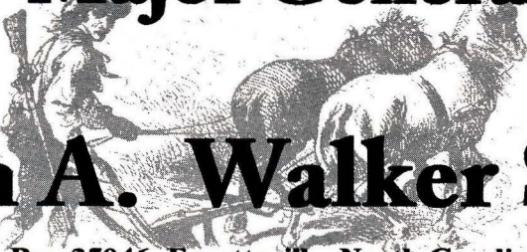

We understand a number of you will decide to decline membership in the MG Walker Society. That is regrettable because your past support of The Resister through its evolution has meant a great deal to us over the years. However, The Resister cannot exist as a subscriber based publication and the only way to receive The Resister will be through membership in the MG Walker Society.

Please read the enclosed memorandum carefully. With your support The Resister can resume publication in fairly short order. We also ask, even though you are entitled to join the MG Walker Society at the reduced rate for current subscribers, that you join at the general membership rate. That will be of great assistance in getting this operation back in the war.

Thank you for your understanding in this matter and for your continued support of our efforts.

Regards,

SFC Steven M. Barry, USA (Ret.)  
Director, Major General Edwin A. Walker Society  
Editor, Periodic Intelligence Report & The Resister

**Major General**

**Edwin A. Walker Society**

P.O. Box 35046, Fayetteville, North Carolina 28303

Dear subscriber:

1. Bottom line up front:

- a. *The Resister* as it currently exists has suspended publication.
- b. *The Resister* is currently reorganizing. It is being folded into the Major General Edwin A. Walker Society.
- c. This reorganization will take several months but is expected to be completed by 01 August 2001. Contingent upon your positive and timely response to this letter *The Resister* will resume publication on 01 September 2001.

2. What that means for current subscribers:

- a. We are changing from subscription based publication to a membership based organization with a periodical. Beginning immediately *The Resister* will be mailed only to those who join and send a monthly donation to the Major General Edwin A. Walker Society. (Details in paragraph 8 below.)
- b. Several methods to effect this changeover were considered. None of them were truly fair to current subscribers to *The Resister*, nor did they resolve adequately the transition from the short-term logistics of publication to sustaining our operations in the long term. However, rather than cease publication of *The Resister* altogether, making it a publication available only to members of the Major General Edwin A. Walker Society was considered more fair to current subscribers than simply ceasing operations.
- c. Current subscribers are automatically enrolled in the Major General Edwin A. Walker Society. (See paragraph 7 below.)
- d. Current subscribers who are due for renewal this year are encouraged to enroll in the Major General Edwin A. Walker Society and begin their monthly donations beginning with this notice.

2. Why the change? The reasons are both financial and, by extension, operational.

a. Financial:

- 1) *The Resister* has always been a subscriber based publication. The reason for that is simple. A subscriber based publication cannot be attacked by the Enemy via their standard tactic of pressuring advertisers to withdraw their ads, and thus undermine the magazine's revenue.
- 2) Unfortunately, that also means a subscriber based publication must sustain an unusually high renewal rate and balance any lack of renewals with new subscriptions in order to meet production costs and overhead. Frankly, that is not happening. That, in measure, along with rising production costs and activities associated with advising and assisting other anti-Communist organizations explains why *The Resister* is frequently late in its production cycle.
- 3) Because a) the overhead per printing is predicated upon a predictable income, and b) if there are not sufficient renewals or new subscribers to make the income predictable, then c) there is not sufficient income to meet the expenses of publishing — let alone meet the expenses incumbent with our other related activities.

b. Operational: As *The Resister's* operations have expanded, so too have our sources of information, the "nets" which supply that information (not to mention the necessity of "servicing" those nets), and so also cooperation with other organizations and anti-Communist movements.

3. As the one who started *The Resister* and organized the Major General Edwin A. Walker Society, and therefore being the one responsible for the hard decisions, my options boiled-down to two:

a) cease publication and operations entirely;

b) restructure our operations as a supporter-based organization with a periodical.

I missed the block of instruction on surrender, so I decided upon option "b".

4. Why should you join the Major General Edwin A. Walker Society and help *The Resister* survive?

a. No other organization is working directly within the military for the expressed purpose of countering Communist influences within it. Other groups may talk about *what* is happening within the military. But *The Resister* not only informs its readers about what is happening, it also identifies *why* it is happening and *who* is responsible — and through the Major General Edwin A. Walker Society we are *doing* something about it.

b. Unlike other organizations and groups, *The Resister* and the Major General Edwin A. Walker Society has a MISSION — a mission we pursue aggressively and actively. The MISSION of the Major General Edwin A. Walker Society is to combat Communistic forces, Cultural Marxism (i.e., political correctness) and Internationalist influences such as the United Nations within the military.

c. Specifically, what *The Resister* does is counter Communist, "multiculturalist," Cultural Marxist (i.e., political correctness), and United Nations propaganda within the military. What the Major General Edwin A. Walker Society does is provide a Rally Point for anti-Communist soldiers who are resisting Bolshevism in the ranks.

d. We know how "the system" works. The Major General Edwin A. Walker Society will immediately be assailed by our nation's Bolshevik Enemies Domestic as an "extremist group." The military chain of command, mercenaries that they are, will obediently genuflect to our Enemies Domestic, and our soldiers — active duty, reserve, and National Guard — will be cautioned against joining the Major General Edwin A. Walker Society. *The Resister* has already been declared to be undesirable reading by the chain of command — which is proof that our activities are having an effect.

5. How you can help:

a. Although we have been able to distribute *The Resister* within the military on a limited basis, mere subscriptions to *The Resister* have proven inadequate either to finance *The Resister* or continue the operations of the Major General Edwin A. Walker Society. That is because the income from subscriptions and renewals to *The Resister* fluctuates too randomly to maintain a fixed publishing cycle, let alone provide sufficient revenue to finance those operations which put *The Resister* in the hands of soldiers and combat Cultural Marxism in the military. Therefore, to continue our anti-Communist activities within the military we need your active support through membership in the Major General Edwin A. Walker Society. That active support is your financial support.

b. We recognize that, whatever their reasons, many anti-Communists do not wish to be identified as participants in Right-wing activism. Some do not become members of organizations because they are "not a joiner." They want the outcome and indirect benefits of the organization's efforts without the necessity of making any effort themselves. Others don't want to become a member of anything because they do not want their names "on a list." They do not, whatever their personal or professional reasons, wish to be identified with their beliefs. Yet, they still want anti-Bolshevik activism to proceed apace. In those cases the very least such people can do is help those who are willing to join and who are not afraid to have their name "on a list" (i.e., those who are willing to be activists and take risks), by supporting the activist's efforts and works financially — for the Cause.

6. We have always refrained from making direct appeals to *The Resister* subscribers for outright donations and gifts, relying instead on describing an ongoing activity and then leaving it to the subscriber to decide whether or not he wishes to support

that particular program. That left both *The Resister* and those related projects critically under funded.

a. The Major General Edwin A. Walker Society was originally formed as a "net" of active duty and retired officers and noncommissioned officers in order to ease the distribution of *The Resister* within the military. Subscribers who sent a donation to the Major General Edwin A. Walker Society helped pay for the expense of shipping hundred of copies of *The Resister* to those who put them in soldier's hands — that help was deeply appreciated. But, as already mentioned, *The Resister* is unable to continue publication as a solely subscriber based publication.

b. By combining all operations, including *The Resister*, into the Major General Edwin A. Walker Society, and by opening the Major General Edwin A. Walker Society to dues-paying membership, we are making the same appeal that all soldiers make; that is, "We will fight your war — provide us with the means to fight."

#### 7. How the Transition Will Occur:

a. Current subscribers: Current subscribers are automatically enrolled in the Major General Edwin A. Walker Society. Current subscribers will have their exiting subscription fee prorated on a dollar-for-dollar basis toward their month-to-month membership in the Major General Edwin A. Walker Society at the membership rate reserved for current subscribers to *The Resister*. (Friend of Major General Edwin A. Walker Society: See paragraph 8 below.)

1) Current subscribers will find the end of their prorated period of membership in the Major General Edwin A. Walker Society printed in the upper left-hand corner of the address label on the envelope of this letter. (e.g., September 2001.) The prorated period of membership is based upon the Friend of Major General Edwin A. Walker Society rate.

2) At the end of their prorated period current subscribers must begin their monthly dues. Current subscribers only, may continue their membership in the Major General Edwin A. Walker Society at the Friend of Major General Edwin A. Walker Society rate instead of the full member rate.

b. It must be emphasized that the success of this transition — from subscriber based publication to membership organization with a periodical — is overwhelmingly dependent upon current subscribers signing on to the Major General Edwin A. Walker Society. Without your membership in the Major General Edwin A. Walker Society, which means your monthly financial support of our anti-Bolshevik activism within the military, our efforts will fail and publication of *The Resister* must cease.

c. We ask, therefore, as a show of your support for our anti-Bolshevik activism within the military, that current subscribers acknowledge the necessity of this transition by enrolling in the Major General Edwin A. Walker Society at the Friend of Major General Edwin A. Walker Society rate upon receipt of this letter, instead of waiting until the end of their prorated period, as a voluntary, albeit strongly encouraged, contribution to the Cause.

d. After much consideration we thought this was the most fair way to transition current subscribers. It is recognized that current subscribers may opt to do nothing, i.e. not enroll in the Major General Edwin A. Walker Society at the Friend rate, in expectation of receiving *The Resister* any way. However, *The Resister* cannot go back into publication until there are sufficient funds to pay for the costs of printing, mailing and overhead.

e. Current subscribers who support the Major General Edwin A. Walker Society at the monthly rate reserved for current subscribers will also receive the Major General Edwin A. Walker Society bimonthly newsletter, *Periodic Intelligence Report*.

f. Subscribers due for renewal: There is no longer a subscription-only renewal rate for *The Resister* because it is no longer a stand-alone publication. *The Resister* is now the periodical of the Major General Edwin A. Walker Society. The only way to receive *The Resister* will be through full membership in the Major General Edwin A. Walker Society as a dues paying Member. Full membership includes both the bimonthly *Periodic Intelligence Report* and the biannual *The Resister*.

#### 8. Membership in the Major General Edwin A. Walker Society:

a. Membership in the Major General Edwin A. Walker Society falls into two categories:

1) Friend: \$10.00 per month. This category is open to current subscribers to *The Resister* only. Current subscribers who sign on as Friend of Major General Edwin A. Walker Society will also receive the bimonthly *Periodic Intelligence Report*.

2) General Member: \$20.00 per month. This category is open to former subscribers to *The Resister* and those who are due for renewal. This category is also open to the general public. Membership includes the bimonthly *Periodic Intelligence Report* and the biannual *The Resister*. Membership is the only way to receive *Periodic Intelligence Report* and *The Resister*. Members will also receive periodic updates on Major General Edwin A. Walker Society activities.

b. The membership list of the Major General Edwin A. Walker Society will never be made available for sale, rent, or lease to any other organization.

9. If there is any confusion on your part as to whether you are a current subscriber, and therefore entitled to sign up with the Major General Edwin A. Walker Society at the Friend rate, or whether your subscription to *The Resister* has lapsed and you must enroll as a General Member, look in the lower right hand corner of the membership form included with this letter. If you find a serial number there you are a current subscriber and therefore eligible for the Friend rate. If there is no serial number on your membership form you must enroll at the General Member rate.

10. Final Word: What sort of military do we want? A military of apolitical mercenaries whose "Internationalist" and "Globalist" preoccupation is "enemies" foreign, while the country they "serve" slips further into domestic Bolshevist tyranny and "multicultural" anarchy and barbarism? Or do we want a patriotic, nationalist military who are as equally concerned about defending their nation from enemies foreign as they are in cleaning house of our enemies domestic, then insuring those enemies domestic never again threaten the nation? We already have the former. But without your support of the Major General Edwin A. Walker Society it is a dead certainty we will never have the latter.

Only the military has the capability to lead our nation out of the social and political chaos that has been inflicted upon us by our Enemies Domestic. Join the Major General Edwin A. Walker Society, support our efforts, and be a part of the only realistic solution.
